

DANCE STUDIO SCREENING AND STAGGERED CLASS PROCEEDURE

ODPASWG:

It is our intention to follow the governed recommendations developed by the Ontario Dance Performing Arts Studio Work Guidelines and Health Canada to keep our Dance Studio Safe. COVID-19 is a fluid situation and so are our Policies.

*Please adhere to ALL MDA Class Strategies for Staggering Entrances and Exits

*Late arrivals will not be admitted until the next designated class Entrance time

*Classes are alternatively available Online for any absences and Parent Viewing

*All Students must wait SAFELY outside the building until they are screened

SCREENING:

Temperature readings and staggered entrances and exits will continue until students understand scheduled times and the direction of traffic inside and outside of the Studio and/or building.

PARENTS:

Only Dance Students are permitted to enter the building at this time. Parents with young dancers under the age of 5yrs may make alternative arrangements with the Studio to escort their children up and down the stairs. We will work with our Dance Families to find the best possible solution for little ones to feel safe and comfortable in dance class.

DISTANCING:

We have taken all necessary steps to ensure the lowest risk possible in our Studio for contracting the Corona Virus. It is believed that during increased activity, social distancing should be altered to least 3 metres (~10 feet). We have made Masks mandatory for all MDA dancers 3ys+. We will assist in any way we can to help make this a positive experience. Exceptions can be made for Medical reasons, those who require accommodation in accordance with the Ontario Human Rights Code, the Accessibility for Ontarians with Disabilities Act, and **others not listed**. Proof is not required.

BREAKS:

There are designated safe spaces around the Studio for sitting, sipping water, snacking and removing masks whenever a dancer feels uncomfortable or overwhelmed.

CLEANING:

There are designated CLEANS throughout the schedule which indicate a deep sanitization of the entire facility. This is due to either; the length of time for a group cohorting has reached its maximum time or another set of dancers are coming into classes. This will take approximately 15minutes to execute. Dancers waiting for the next class to start will be designated a safe space to wait until it is safe to head back.

MONDAY CLASSES AT 104 MAIN STREET EAST LOCATION
